Brooks Cycles Track League 2025

AGM Track League Report

Brooks Cycles Track League 2025 saw 15 of the 19 rounds running throughout the season. The league started off well with a glorious block of 5 weeks of sun and heat that started the season with a positive attitude.

The track was well prepared and ready to see lots of racing with a new program that meant the youth league finished earlier in the night allowing for the younger riders to get home and set for school the next day. This was well accepted and the attendance of multiple clubs from Newport CC and ESV Manchester meant that the youth league had a very good attendance throughout the summer.

The endurance leagues were well attended with the B and C leagues. The A endurance league was limited on attendance but with strong B riders being promoted in to the A league for the 2026 season, this should help to promote the A league rider attendance. The endurance league saw a good number of riders competing on tough but friendly competition. Our strongest field was the C league out of the endurance leagues (as you can see from the data below).

Our sprinters league saw the most riders across the groups and with consistent attendance the league was tough competition with some great riders. With the addition of the new electric derny (sponsored through British Cycling and Shell Recharge), we saw the keirins having a new sound and feel to the league. The addition of the e-bike allows us to cut our carbon emissions and help to provide a greener facility. This along with the new LED floodlights this should combine into a venue that we can be proud of and keep sustainable for years to come.

The league once again saw only a very small number of incidents throughout the summer season. Providing a safe environment is a key aspect of Newcastle track and this is promoted through the riders, officials and helpers who are in attendance. The riders promote a positive atmosphere within the league and continue to be the best asset of the league. Once again, I want to take the time to say a big thank you to all riders who attend the league and help to keep the atmosphere of Newcastle alive, friendly and safe.

The league provided a good opportunity once again for those who were riding in the open events (National Youth Omnium Series and Track Future Stars Series) to get a ride on the track before the events. The attendance at the league is boosted by these events being at the track and wish for these events to remain at the track for the future. A big thank you to Norman and Josh for organising these events so that the attendance of the league is boosted.

We saw the first running of the Jeanette Baxter Memorial ride along with the established Gerald Pyatt Memorial seeing good attendance on both of these races. The memorials allow us to reflect on those who have sadly passed and no longer with us but will keep in our memories. The memorials are a chance to remember not just those who the events are named after but the countless riders, helpers/officials and spectators within the cycling world that are no longer with us and I hope to see the attendance of these races stay strong in honour of all those who we have sadly lost.

Hopefully we keep the league attendance going and support our bid to resurface the track in the near future.

Thank you to everyone who has either helped on the league, rode the league or been there to watch the racing and support the riders.

Statistics for the 2025 season of the league:

Total number of riders: 86 (up from 75)

Total number of rounds planned: 19

Total number of rounds ran: 15 (4 cancelled)

Total number of entries across the rounds that ran: 488

Total number of entries rejected for the rounds cancelled: 125

Number of riders under 18: 41

Number of riders over 18: 45

Number of riders from regions of home nations:

Region of Home Nations	Riders from Regions
West midlands	27
North west	40
East midlands	11
Wales	4
West of scotland	0
East and central scotland	0
West of scotland	0
North east scotland	0
Central	0
Eastern	0
South east	1
Yorkshire	2
Total	85

Number of Riders per week Per league (A, B, C, Sprint, Youth)

Number of Entries per week:

Round	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19
Ran	Y	Y	Y	Y	Y	N	N	Y	Y	Y	Y	Y	Y	Y	Y	Y	Y	N	N
TOTAL(Y)	39	40	45	35	32	0	0	31	26	30	32	34	31	26	25	33	29	0	0

Split of riders across all rounds of the league by gender:
