

Brooks Cycles (Newcastle) Track League 2022 Report

This year carried on the success that the track has seen during previous years with the league. With return to nominal levels of riders this year (around 30/40 riders per evening) the turn out has been steady allowing us to provide a good solid racing events throughout the summer season.

At the start of the season, we saw the addition of a new motor pace bike. Thank you to Norman for making this process as easy as possible. This bike has allowed us to improve our paced races. During the season we introduced a paced race for the A-Endurance riders that was a longer and faster keirin style event that asked riders to keep up with the pace bike at high speed for a length of time and then complete a final sprint off the bike.

The league had a good turn out from across the regional clubs as well as support from riders further afield. With the Newcastle Youth Omnium being scheduled to run at the track once again this year, the league saw riders attending to try out the track before they were scheduled to ride at the omnium.

Riders and officials made the track league a welcoming and fun, safe environment for all riders to compete. Without the efforts made from all riders to create the welcoming environment.

Racing had a good turn out across all of the groups with strong turn outs in all categories.

To round off the year, we held the annual Track Prize presentation. Once again the presentation was held in the social bar at the track. Thank you to everyone attended the evening and made the evening a good way to round off the year.

Thank you to all riders for their efforts and attendance at the track league. Thank you to the support of the officials and helpers (both in official and unofficial capacities), without your efforts we cannot run the league. We hope to see you all in the 2023 season.
